Dear Get 1 Free Magazine,

I wanted to say thank you for the great response I have received from your publication. I have been truly impressed with the results since I was skeptical that it would not work.

Once looking through the books, I ended up using a couple of the coupons myself.

Just after only two months I have received tons of coupons from both the book and the Internet. I still can not believe how long the shelf live is, and I continue to get coupons even at the end of the month.

I received lots of help from Get 1 Free and my sales rep, Chelsea, who came out to take photos and help design my ad. I have received great service and appreciate that she checked in on me and wanted what was best for my company and not to just take my money.

Get 1 Free Magazine is a great deal and provides a great service!

Sincerely,

Rana Hansen
