To Whom It May Concern:

I just wanted to write you a brief letter expressing our gratitude for your services. Although we have only been advertising through Get 1 Free for a short period of time it is already proving to be a promising investment. Your ideas and offers have had awesome results. The "Kall- 888" has been very helpful in tracking results and has greatly helped to improve the quality of our customer service.

Noah Taylor, our representative, has been wonderful to work with. He was persistent with his follow-ups and was always polite. We would like to thank him for his extraordinary customer service.

We have received such a great response. This is one business I would recommend others to advertise with.

Sincerely,

Shelly Olson
Office Manager
