

*Get 1 Free* Magazine is an advertising company that can help a business make more money. That is what I ultimately wanted: More money by way of new customers! Not only can *Get 1 Free* help your business grow, but also their representatives and owners are there at your side, to offer their expertise, opinions and any other resources that may help your success.

As the owner of a new company, I was looking to advertise with a company that would bring me customers. I emailed *Get 1 Free* to inquire about their services. Within a couple of days, and at my convenience, Noah Taylor from *Get 1 Free* contacted me and then came to my home to discuss their advertising opportunity. Noah demonstrated how *Get 1 Free* advertising has been successful for other business owners, and how it could succeed for my company. Based on the proof of success for others, I could not resist trying advertising with them.

As soon I began to advertise with *Get 1 Free*, my phone began to ring and I began to make more money than I was before them. And as a result of *Get 1 Free*, my company evolved larger than I imagined overnight. Instead of being a manufacturing-only company, we expanded into installation because all customers wanted a "turn-key" service. My business and profits multiplied due to advertising with *Get 1 Free*. To make matters even better, because of *Get 1 Free*, a purchaser for Home Depot saw my advertising and began to inquire about my products and services. After I remodeled his fireplace with our stone, Home Depot and I are now in discussion to signing a contract that could be ultimately worth millions for me. Did I mention that I began this business as Part-Time?

*Get 1 Free* is a business investment, not just an advertising opportunity. After meeting the staff and owners of *Get 1 Free*, I immediately observed they are all professional and tightly knit. I have personally met them and observed how they get along in and outside of work functions. They are a winning team working for you. As my testimonial, and as a business owner to business owner, believe me when I say to you that *Get 1 Free* will make you money by bringing you the customers. The rest is up to YOU!

Thank you *Get 1 Free* [Ivan, Valerie and Staff], and Thank you Noah for offering all your resources for my success.
