I've been dealing with Get 1 Free Magazine for close to a year. The response to my ad has been better than I had expected. I picked up customers I would otherwise not get through other advertising methods unless I wanted to spend twice as much.

My advertising representative, Jory Jackson, has been more than helpful. Whenever I needed anything explained or researched, she went out of her way to make me feel like the most important customer on her list (which I AM of course). She is a great person to deal with and knew how to get my ad to work for me. A professional in every way.

Sincerely,

Mike Petschek
